ABSTRACT

Included in this publication are summary data on associate degrees and completion of occupational curricula and other programs below the baccalaureate level in the following areas: (1) arts and science or general programs not organized as occupational curricula; (2) science-related or engineering-related organized occupational curricula at the technical or semiprofessional level divided by subject field designation; (3) non-science-related and non-engineering-related curricula at the technical or semiprofessional level divided by subject field designation; and (4) organized occupational curricula below the technical or semiprofessional level. Data are organized into extensive tables by type and control of institution, type and length of curriculum, type of credit and award, sex of student, and state. (Author/JDS)

Associate Degrees and Other Formal Awards Below the Baccalaureate 1972-73 and 1973-74

Summary Data

JC 770 009

AMERICAN REVOLUTION BICENTENNIAL 1776-1976

HIGHLIGHTS

1. In 1972-73 there were 395,186 completions of sub-baccalaureate curriculums (a 10.6-percent increase over 1971-72), for which associate degrees or other formal recognition was given. In 1973-74 there were 429,707 such completions, an increase of 8.7 percent over 1972-73.

2. Associate degrees awarded during the 2 school years occurred in this distribution:

   a. In 1972-73, a total of 319,068 (an increase of 8.5 percent over 1971-72); in 1973-74, a total of 347,173 (an increase of 8.8 percent over 1972-73).
   b. For work wholly or chiefly creditable towards a bachelor's degree: 242,290 in 1972-73 (a 6.5-percent increase over 1971-72); 253,875 in 1973-74 (an increase of 4.8-percent over 1972-73).
   c. For work *not* wholly or chiefly creditable towards a bachelor's degree: 76,778 in 1972-73 (15.2-percent increase over 1971-72); 93,298 in 1973-74 (21.5-percent increase over 1972-73).

3. Awards other than associate degrees: 76,118 in 1972-73 (20.4-percent increase over the previous year); 82,534 in 1973-74 (8.4-percent increase).

   a. In curriculums of 2, but less than 4 years, the numbers were: 22,217 in 1972-73 (1.2-percent increase); 22,770 in 1973-74 (2.5-percent increase).
   b. In curriculums of at least 1 year, but less than 2 years, the numbers were: 53,901 in 1972-73 (30.7-percent increase over the previous year); 59,764 in 1973-74 (10.9-percent increase).

4. In organized occupational curriculums, 230,178 associate degrees and other formal awards were conferred in 1972-73 and 260,508 in 1973-74.

5. In the arts and science or general programs, not organized as occupational curriculums, 165,008 associate degrees and other formal awards were conferred in 1972-73 and 169,199 in 1973-74.

6. By control of institution, proportions of the total sub-baccalaureate completions for the 2 school years were:

   a. Public: 1972-73, 87.5 percent; 1973-74, 87.1 percent.
   b. Private: 1972-73, 12.5 percent; 1973-74, 12.9 percent.

7. By sex of student, proportions of the total sub-baccalaureate completions were:

   a. Men: 1972-73, 53.9 percent; 1973-74, 53.2 percent.
   b. Women: 1972-73, 46.1 percent; 1973-74, 46.8 percent.

8. Women received:

   a. 44.7 percent of all associate degrees in 1972-73 and 45.4 percent in 1973-74;
   b. 47.8 percent of all awards in organized occupational curriculums in 1972-73 and 48.8 percent in 1973-74;
   c. 43.7 percent of all awards in arts and science or general programs (not organized as occupational curriculums) in 1972-73 and 43.6 percent in 1973-74.

FOREWORD

This summary report presents data from two annual surveys by the National Center for Education Statistics of associate degrees and other formal awards granted for less than 4 years of college-level work in institutions of higher education in the United States. Primary emphasis is on completion of occupational curriculums, in a wide variety of technologies, normally offered in 2-year collegiate programs designed to prepare students for immediate employment in a specific occupation or cluster of occupations.

Data for the reports were obtained from the survey instrument "Degrees and Other Formal Awards Conferred," covering July 1, 1972, to June 30, 1973, and July 1, 1973, to June 30, 1974, which was part of the eighth and ninth annual HEGIS (Higher Education General Information Survey) surveys. (Information on baccalaureate and higher degrees is presented in a separate report, *Earned Degrees Conferred, 1972-73 and 1973-74, Summary Data.*) The tables present the data broken down by institutional control and type, sex of recipient, State, type of curriculum, discipline division, and specialty. Detailed tables showing the number of awards by type and reporting unit, within each discipline specialty, are not being printed for 1972-73, but are being printed for 1973-74 in a very limited edition.

The cooperation of contributing college and university officials has made possible a response rate of very close to 100 percent for 1972-73 (only one institution was unable to supply the necessary information) and of 100 percent for 1973-74. The continuing efforts and interest of survey respondents and State coordinators are deeply appreciated.

Theodore H. Drews, *Acting Director*
Division of Survey Planning and Analysis

Edith M. Huddleston, *Acting Chief*
Higher Education Surveys Branch

ACKNOWLEDGMENTS

The preparation of a publication of this type is the result of months of work by many different people within the National Center for Education Statistics. While not all can be mentioned by name, three are of particular importance:

Geneva C. Davis, Statistical Assistant, did much of the checking of tables for completeness and accuracy.

Linda D. Barry and Mary A. Gilbert, typists, put the manuscript in order.

Lucille A. Hall, Statistical Assistant, maintained the control logs.

TABLES

Basic Tables, 1972-73

1. Associate degrees and other awards at and below the technical or semiprofessional level, by length of curriculum, type of credit, type of award, sex of student, and control and level of institution: Aggregate United States, 1972-73 7
2. Associate degrees and other awards at and below the technical or semiprofessional level, by length of curriculum, type of credit, type of award, sex of student, and State or other area: Aggregate United States, 1972-73 8
3. Associate degrees conferred at and below the technical or semiprofessional level, by type of credit, sex of student, and control and level of institution: Aggregate United States, 1972-73 9
4. Associate degrees conferred at and below the technical or semiprofessional level, by type of credit, sex of student, and State or other area: Aggregate United States, 1972-73 10
5. Associate degrees and other awards, by type of curriculum, curriculum category and division, type of award, length and level of curriculum, and control and level of institution: Aggregate United States, 1972-73 11
6. Associate degrees and other awards, by type of curriculum, curriculum category and division, type of award, length and level of curriculum, and State or other area: Aggregate United States, 1972-73 12
7. Associate degrees and other awards, by length of curriculum, type of credit, type of award, sex of student, level of curriculum, and by type of curriculum, curriculum category and division. Aggregate United States, 1972-73 15
8. Associate degrees and other awards, by length of curriculum, type of credit, type of award, sex of student, level and type of curriculum, and curriculum category, division, and specialty: Aggregate United States, 1972-73 16
9. Associate degrees and other awards in arts and science or general programs, by length of curriculum, type of credit, type of award, sex of student, and control and level of institution: Aggregate United States, 1972-73 18

Page

10. Associate degrees and other awards in arts and science or general programs, by length of curriculum, type of credit, type of award, sex of student, and State or other area: Aggregate United States, 1972-73 19
11. Associate degrees and other awards in science- or engineering-related organized occupational curriculums at and below the technical or semiprofessional level, by length of curriculum, type of credit, type of award, sex of student, and control and level of institution: Aggregate United States, 1972-73 20
12. Associate degrees and other awards in non-science- or non-engineering-related organized occupational curriculums at and below the technical or semiprofessional level, by length of curriculum, type of credit, type of award, sex of student, and control and level of institution: Aggregate United States, 1972-73 21
13. Associate degrees and other awards, by control and level of institution, length of curriculum, type of credit, and State or other area: Aggregate United States, 1972-73 22

Basic Tables, 1973-74

1. Associate degrees and other awards, by length of curriculum, type of credit, type of award, sex of student, and control and level of institution: Aggregate United States, 1973-74 28
2. Associate degrees and other awards, by length of curriculum, type of credit, type of award, sex of student, and State or other area: Aggregate United States, 1973-74 29
3. Associate degrees conferred, by type of credit, sex of student, and control and level of institution: Aggregate United States, 1973-74 30
4. Associate degrees conferred, by type of credit, sex of student, and State or other area: Aggregate United States, 1973-74 31
5. Associate degrees and other awards, by type of curriculum, curriculum category and division, type of award, length of curriculum, and control and level of institution: Aggregate United States, 1973-74 32
6. Associate degrees and other awards, by type of curriculum, curriculum category and division, type of award, length of curriculum, and State or other area: Aggregate United States, 1973-74 33
7. Associate degrees and other awards, by length of curriculum, type of credit, type of award, sex of student, and by type of curriculum, curriculum category, and division: Aggregate United States, 1973-74 36
8. Associate degrees and other awards, by length of curriculum, type of credit, type of award, sex of student, type of curriculum and curriculum category, division, and specialty: Aggregate United States, 1973-74 38
9. Associate degrees and other awards in arts and science or general programs, by length of curriculum, type of credit, type of award, sex of student, and control and level of institution: Aggregate United States, 1973-74 39
10. Associate degrees and other awards in arts and science or general programs, by length of curriculum, type of credit, type of award, sex of student, and State or other area: Aggregate United States, 1973-74 40
11. Associate degrees and other awards in science- or engineering-related organized occupational curriculums, by length of curriculum, type of credit, type of award, sex of student, and control and level of institution: Aggregate United States, 1973-74 41
12. Associate degrees and other awards in non-science- or non-engineering-related organized occupational curriculums, by length of curriculum, type of credit, type of award, sex of student, and control and level of institution: Aggregate United States, 1973-74 42
13. Associate degrees and other awards, by control and level of institution, length of curriculum, type of credit, and State or other area: Aggregate United States, 1973-74 43

111. Associate degrees and other awards in science- or engineering-related organized occupational curriculums, by length of curriculum, type of credit, type of award, sex of student, and control and level of institution: Aggregate United States, 1973-74 70
112. Associate degrees and other awards in non-science- or non-engineering-related organized occupational curriculums, by length or curriculum, type of credit, type of award, sex of student, and control and level of institution: Aggregate United States, 1973-74 71
113. Associate degrees and other awards, by control and level of institution, length of curriculum, type of credit, and State or other area: Aggregate United States, 1973-74 72

PURPOSE OF THE SURVEY

The purpose of the survey of associate degrees and other formal awards below the baccalaureate is to maintain a national source of information on the supply of trained manpower being developed in a variety of organized occupational curriculums designed to prepare students for immediate employment. The information is needed for manpower planning at local, State, regional, and Federal levels.

By maintaining the same fields of study as in previous years, this publication provides data for studies of trends in numbers of associate degrees and other awards below the baccalaureate, by sex, geographic area, and type of institution within these fields of study.

SURVEY ORGANIZATION AND METHODOLOGY

Survey Universe

The reporting units* included here constitute all those in the National Center for Education Statistics' universe that could be determined as offering programs requiring at least 2 years of college-level work, but less than 4 years, during the periods from July 1, 1972, to June 30, 1973, and from July 1, 1973, to June 30, 1974. The survey universe for 1972-73 is based on the list of institutions included in the *Education Directory, 1971-72, Higher Education* (HEW Publication No. (OE) 72-95), with such changes as were known to NCES in fall 1972. The survey universe for 1973-74 is based on the *Education Directory, 1972-73, Higher Education* (HEW Publication No. (OE) 74-11404), with such changes as were known to NCES in fall 1973.

Major Classifications of Data

Degrees and Awards

The survey requests data for higher education degrees and awards below the baccalaureate which are defined as follows:

Associate Degree: requires successful completion of at least 2 but less than 4 years of work beyond secondary school. The survey instrument distinguishes between associate-degree curriculums representing work wholly or chiefly creditable toward a bachelor's degree and those representing work not wholly or chiefly so creditable.

Other Formal Award: requires completion of at least 1 year of work beyond secondary school. In the survey instrument, data are collected separately for those awards for curriculums of 2 but less than 4 years and those for curriculums of at least 1 but less than 2 years.

Type of Control

Reporting units were identified as "public" or "private," according to their classification in the *Education Directory, Higher Education.*

Types of Institutions

Selected tables in this report identify reporting units in three categories: "universities," "other 4-year institutions," and "2-year institutions." Reporting units are

*In this report an institution may consist of one or more separately organized reporting units. For example, Southern Illinois University is a single institution composed of two reporting units: the campus at Carbondale and the campus at Edwardsville. (A central office of a university system is not considered a reporting unit in this survey.)

classified as universities when they give considerable stress to graduate instruction, confer advanced as well as bachelor's degrees in a variety of liberal arts fields, and have at least two professional schools that are not exclusively technological. Other reporting units offering 4 or more years of college-level work, but not meeting the criteria for classification as universities, make up the "other 4-year" category. Reporting units that offer at least 2 years of college-level work but less than 4 years are classified as "2-year institutions."

Curriculum Category and Division

There are three curriculum categories identified in this report:

1. Arts and science or general programs not organized as occupational curriculums.
2. Science-related or engineering-related organized occupational curriculums. This category consists of four divisions:

   a. data-processing technologies
   b. health services and paramedical technologies
   c. mechanical and engineering technologies
   d. natural-science technologies

3. Non-science- and non-engineering-related organized occupational curriculums. This category consists of two divisions:

   a. business and commerce technologies
   b. public service-related technologies

Discipline Specialty (Major Field of Study)

The classification of discipline specialties relies on *A Taxonomy of Instructional Programs in Higher Education,** which was adopted by HEGIS in 1970 and provides comparability of data on a continuing basis.

*Robert A. Huff and Marjorie O. Chandler, *A Taxonomy of Instructional Programs in Higher Eduction (OE 50064-70)*, U.S. Department of Health, Education, and Welfare, Office of Education, National Center for Education Statistics. (Washington: U.S. Government Printing Office, 1970.)

Data Collection

A copy of the survey form, together with instructions and definitions (see appendix B), was addressed to the president of each reporting unit listed in the survey universe or, in more than one-half of the States, to a State coordinator. The latter supplied the data from information submitted by the reporting units, or coordinated the data collection with all or selected reporting units in the State. Followup letters and phone calls went to State coordinators or institutional officials whose data were not received within a reasonable period after the due date of August 15, in each survey year.

Data Verification

Three methods were utilized to verify the reasonableness of data submitted by each reporting unit:

1. A computer check was made for field-by-field comparison with the data submitted for the previous year. This procedure helped determine whether the data varied by more than a predetermined percentage from the previous year's submission. The acceptable variance was based on the order of magnitude of the data field size: the greater the number of degrees, the lower the percentage of variance accepted.
2. Survey forms containing data items rejected by the computer check were examined visually by survey personnel to determine whether footnotes, explanatory notes, or readily recognizable human errors accounted for the apparent discrepancies. Where necessary, catalogs of the institutions were consulted for institutional offerings.
3. The remaining discrepancies were resolved by correspondence or telephone contact with State coordinators and institutional representatives.

Internal checks for consistency included the checking of accumulated totals against subtotals obtained from appropriate subsets of the data.

PRESENTATION AND COMPARABILITY OF THE DATA

Tables

This report contains 13 basic tables for each of the two years, 1972-73 and 1973-74. These tables are comparable with previous years' reports, although in different order, and contain what the authors believe to be the most comprehensive and useful groupings of the data within the constraints of publication.

Table 1 presents summary data by control and level of institution. *Table 2* shows, by State, the data summarized in table 1. In both tables, the data are combined by level and type of curriculum.

Table 3 is a summary of associate degrees only, by type of credit (work wholly or chiefly creditable towards a bachelor's degree, and that which is not) and by control and level of institution. *Table 4* is a State listing by type of credit, limited to associate degrees only.

Table 5 has a breakdown of associate degrees and other awards, by control and level of institution and by length and level of curriculum. *Table 6* shows a separate State listing of associate degrees and other awards, by type of award and by length and level of curriculum.

Table 7 is a summary table of associate degrees and other awards, by curriculum division. *Table 8* shows these awards by curriculum division and specialty.

Tables 9 and 10 are concerned with arts and science or general programs. Data are presented by control and level of institution and State, respectively.

Tables 11 and 12 present summaries of associate degrees and other awards, by curriculum division and specialty and by control and level of institution. *Table 11* summarizes the data for science- or engineering-related occupational curriculums. *Table 12* summarizes the data for non-science- or non-engineering-related organized occupational curriculums.

Table 13 has State data on associate degrees and other awards classified by control and level of institution and by length of program. Data are combined by level and type of curriculum.

Because the order of tables in this report is significantly different from that of previous reports, the comparison table below may be helpful.

Table number in 1972-73 and 1973-74	*Table number in 1970-71 and 1971-72*
1	1
2	2
3	5
4	8
5	7
6	14
7	10
8	15
9	17
10	18
11	12
12	13
13	4

Tables that show numbers of degrees and awards by discipline specialty and by institution are not being published for 1972-73. They are being published in a very limited edition for 1973-74, and are available only on request by writing to:

Curtis O. Baker
Survey Director
Higher Education Surveys Branch
National Center for Education Statistics
FOB #6—Room 2171
400 Maryland Avenue, S.W.
Washington, D.C. 20202

Computer Tapes

Persons interested in making additional groupings or analyses of the data may secure a computer tape (approximate cost $94.00 or $120.00, depending on

density) containing all data used in the preparation of this report. Information on the tapes may be obtained from:

Robert A. Heintze
Statistical Services Branch
National Center for Education Statistics
FOB #6–Room 3069
400 Maryland Avenue, S.W.
Washington, D.C. 20202

Comparability of Data

In the 1973-74 survey, the distinction between curriculums *at* the technical or semiprofessional level and those *below* that level has been eliminated. This is reflected in a change in the titles of tables 1, 2, 3, 4, 11, 12, 13, between 1972-73 and 1973-74. It also means that comparisons between these 2 years must be made with care to allow for these differences.

In terms of curriculum divisions and specialties the surveys for both years included in this report continue to utilize the classification of fields of study published in *A Taxonomy of Instructional Programs in Higher Education.* The taxonomy was reprinted in the 1970-71 edition of this report. The introduction of the new field classification system means that any comparisons with data prior to 1970-71 should be made with particular care. A degree of comparability is possible through use of a translation table included with the taxonomy. However, the additions of new fields, together with changed distributions and descriptions of fields formerly included, changed the classification base to such an extent that in many cases significant comparisons would be impossible.

BASIC TABLES

1972-73

TABLE 1.—ASSOCIATE DEGREES AND OTHER AWARDS AT AND BELOW THE TECHNICAL OR SEMIPROFESSIONAL LEVEL, BY LENGTH OF CURRICULUM, TYPE OF CREDIT, TYPE OF AWARD, SEX OF STUDENT, AND CONTROL AND LEVEL OF INSTITUTION: AGGREGATE UNITED STATES, 1972-73

APPENDIXES

A. An Alternate Method of Aggregation of Institutional Data

B. Reproduction of Survey Report Forms, Part C

APPENDIX A

AN ALTERNATE METHOD OF AGGREGATION OF INSTITUTIONAL DATA

Recognizing that increasing numbers of multicampus institutions are composed of various units offering programs at different levels, the National Center of Education Statistics, in 1972, began a new identification system. This system identifies the level of program in each of the units separately rather than for the multicampus institution as a whole. The traditional program levels remain: university, other 4-year, and 2-year.

The new method of aggregating data according to the program level of each reporting unit makes it possible to group 2-year branches of multicampus universities and 2-year branches of other 4-year institutions with the independent 2-year institutions (rather than with the parent institution). In similar fashion, "other 4-year" branches of multicampus universities can be grouped with independent "other 4-year" institutions. This new approach provides a count of all reporting units (whether branches or independent institutions), and classifies each of the units according to its own program level. The homogeneous groupings provided by this treatment of institutional data are essential for many types of operations analyses and institutional comparisons.

This appendix presents, for the first time, a new method of data aggregation for *Associate Degrees and Other Formal Awards Below the Baccalaureate*, for the years 1972-73 and 1973-74. Each individual reporting unit is now coded in one of six ways:

(Code 1) University (including only those branches classified at the university level)
(Code 2) Other 4-year institution (including only those branches classified at the other 4-year level)
(Code 3) 2-year institution (including only its own branches)
(Code 4) 4-year branch of a university
(Code 5) 2-year branch of a university
(Code 6) 2-year branch of "other 4-year" institution

Using the "old" method of aggregation, that used in the basic tables in this publication, reporting units aggregate as follows:

University = 1 + 4 + 5
Other 4-year = 2 + 6
2-year = 3

The "new" method of aggregation, used in the tables in this appendix, is as follows:

University = 1
Other 4-year = 2 + 4
2-year = 3 + 5 + 6

The general impact of the "new" method of aggregation is to reduce the number of students shown as receiving, from universities, degrees and awards below the baccalaureate. Tables A and B below summarize the general impact of changing the method of aggregation.

Table A.–Number of associate degrees and other formal awards, granted by each level of institution, using two methods of aggregation: Aggregate United States, 1972-73

Level of institution	*Total number of awards*	
	Old method	*New method*
Part 1–Publicly controlled institutions		
Universities	22,222	14,619
Other 4-year institutions	12,461	14,714
2-year institutions	310,928	316,278
Part 2–Privately controlled institutions		
Universities	3,802	3,728
Other 4-year insitutions	16,756	16,145
2-year institutions	29,022	9,707

Table B.–Number of associate degrees and other formal awards, granted by each level of institution, using two methods of aggregation: Aggregate United States, 1973-74

Level of institution	*Total number of awards*	
	Old method	*New method*
Part 1–Publicly controlled institutions		
Universities	24,592	13,795
Other 4-year institutions	14,715	18,503
2-year institutions	335,140	342,149
Part 2–Privately controlled institutions		
Universities	3,958	3,875
Other 4-year institutions	18,728	18,148
2-year institutions	32,574	33,237

To simplify comparisons between the two methods, a consistent numbering system is used. In this publication the tables aggregated by the "new" method have 100 added to the number used for the tables aggregating the same data by the "old" method. These tables (101, 103, 105, 109, 111, 112, 113) are on the following pages. As in the main body of the publication, 1972-73 tables are presented first and 1973-74 tables follow.

APPENDIX B

REPRODUCTION OF SURVEY REPORT FORM, PART C

NAME OF INSTITUTION | 1. INSTITUTION CODE NUMBER

PART C. DEGREES AND AWARDS BASED ON LESS THAN 4 YEARS OF WORK BEYOND HIGH SCHOOL, 1973-74

IS PART C APPLICABLE TO YOUR INSTITUTION? (If not applicable, omit.) ☐ YES ☐ NO

NOTE: EXCLUDE any students who have completed the first part of a 4-year baccalaureate curriculum, but who have not received any type of formal recognition other than a transcript.
